

I am so thankful to be Alve...

I have wonderful family, wonderful doctors, especially Dr. Howard, he always has his camera, and he always wishes me a happy Chemo (yuck). If it hadn't been for St. Jude, I wouldn't be

Alive"

All the shots I had to get that made me cry, and all of that nasty medicine that made me sick, it was all worth it because I am

Chemo and radiation can make you feel egastra heavy and slow like an elephant.

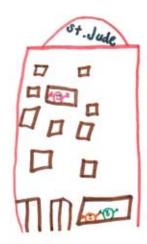

It was eggetting meeting other cool kids like me who knew how I was feeling.

The doctors and nurses are eggsperts at helping kids get better.

Now I'm back home and I feel eggcellent and strong again!

I'm eggstremely happy that St. Jade Saved my life!

### H is for Heart ...

Our heart is a very mystery thing that always surprising us ...

Mynd is is is

Because we can fell all Kinds of emotions and feelings inside of it, such as: love, fear, compasion, and all Kind of emotions you can imagen. Everything start up inside of our heart...

It is thathers

I know it is thath because I had had very confusing feelings in my heart in moments of much pain and ill ness, but I learned something, I do not allow that fear and hopeless invade my heart, by the way, I always tray to fill it of love because with love in our heart we can go thrugh anything in our lifes.

P.S. love anyone with all your heart, in the same way that you will wish they would love you.

I was diagnosed with a brain tumor when I was nine years old. I had really bad headaches and vomitting everyday. I was really afraid and didn't know if I was going to live die. My parents brought me to St. Jude. Everyone was so nice and this place was great. I had to go through radiation, stem cell replacement and high dose Chemo. I was so sick and I lost a lot of weight and the people here made me feel better. I thank Good for St. Jade and everyone here has helped me to become the person I am today. I am a straight "A" student and I have returned doing all of the things I did before I gotsick. When I grow up I am going to be a doctor and work at St. Jude and help sick kids like the doctors helped me.

St. Jude Children's Research Hospital

Twe gone through the cancer

Twe climbed the highest mountain

Twe met and felt the quintessence of it all

I know what it's like

As I went through the treatment.
I never thought.
What a quagnire I'm in
Or how hard I would have to fight

Inever felt a doubt
That I would get better
There was never a qualm or thought
Of how I would live after

never stopped getting better never let go of my hope always saw the light in the blackness never quit.

There was no way
To quench the fire
There is no way
To stop it from coming

Defore the surgery
I flew like a quetzal
On my rollerblades, my ice skates, my bike
Now I must walk heeded
Stumbling at every turn

Now out of chemo Not that long, a few months at most 1 still have a twitch in my leg A scar on my head, my chest, my heart I know how life can be like quicksilver Unpredictable, unstable Deady to rock at every turn

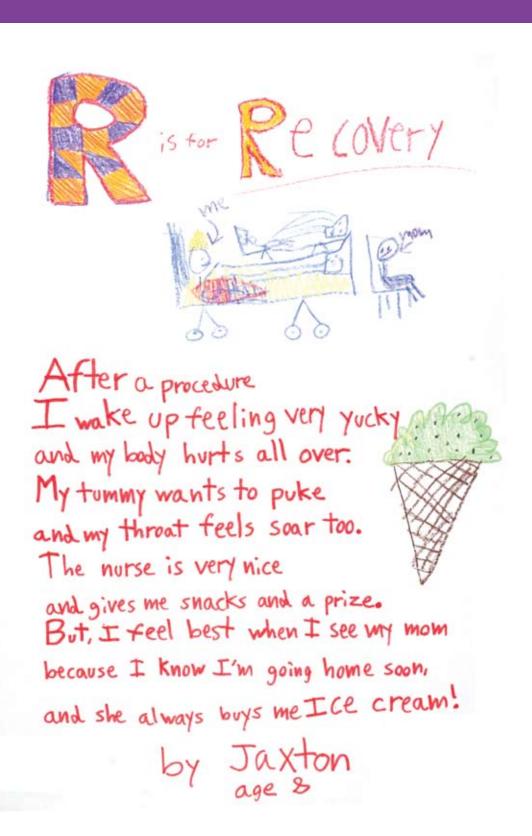

I know what a quest.
This life is
And how you must find your meaning.

Every question I had was answered Every qualm, every quest and query Everything in the dark was lit. Every heart was opened to me At &t. Jude

Wens U.

Just 5 weeks old
Too young to remember
And so I've been told
Of wonderful doctors
And nurses and such
Who cared for me gently
And LONED me so much
My cancer was ZAPPED!
NOW I dance, Play and sing
My hospital, st. Jude's
Ts a WONDERFUL thing!
