MADERO MUST FACE TRIAL FOR MURDER; CAPITAL NOW QUIET

DEPOSED PRESIDENT CANNOT ESCAPE MEXICO WITHOUT INVESTIGATION BY ENEMIES—THIS GOVERNMENT WONDERING IF PEACE WILL PROVE ENDURING.

MEXICO CITY, Feb. 20.—President Huerta, is planning to send troops into the states of Aguas Calientes and Coahuila where the governors have refused to recognize the new government.

FORCES CHARGES.

Madero to Be Held to Account for Government Money.

MEXICO CITY, Feb. 20.—That Madero will out of Mexico without having to face an official investigation appears improbable. He has already been charged with responsibility for the death of Colonel Riveroll, whom he is alleged to have shot at the time of his arrest in the palace. A committee of deputies has now asked that Madero be forced to account for the moneys expended by his administration.

The committee called on Huerta this afternoon and urged that Madero be held accountable for the depleted condition of the treasury.

The last details of the organization of Mexico's new government were completed this afternoon when the members of Huerta's official family took their oath of office. Madero and Suarez, the deposed vice president, were able to hear the salvos of applause from the crowds in the streets when the new administration was sworn in.

CAPITAL QUIET.

Conditions Rapidly Becoming Normal Says Wilson.

WASHINGTON, Feb. 20.—The Mexican capital is rapidly returning to normal conditions, according to reports from Ambassador Wilson. Whether the peaceful condition will continue is the subject of much speculation by government officials.

It seems the general feeling that unless some special inducements in the way of desirable offices be held out to the rebels in the north, these men will refuse to recognize the new government and continue their operations until subdued by force.

Zapata Expected To Resist Huerta.

It is generally expected that Zapata will prove unreconcilable and this force is numerous.

Huerta informed Wilson yesterday that the killing of Gustavo Madero was done by soldiers without orders, though he declared Gustavo joined with Madero in two attempts on his life.

The state of Coahuila has refused to recognize Huerta on constitutional grounds and is prepared with armed troops to resist his authority and has appealed to the governors of other states to take similar action.

TROOPS REFUSED

War Department Thinks Enough Are on Border.

WASHINGTON, Feb. 20.—Governor Colquitt request for an increase of troops patrolling the Texas border was met at the war department with the reply that the present patrol of 4,000 troops is sufficient.

MAKING DEMANDS.

Northern Rebels Want Land Laws Made Effective.

EL PASO, Feb. 20.—Before continuing the campaign in Northern Mexico, the rebels will make certain demands on the Huerta provisional government. The principal request will be for immediate application of the land clause in the San Luis Potosi plan as formed in the Madero revolution and later ac-

cepted by all the revolutionary interests.

The sale of public land on easy payments will be demanded. The rebel delegates will leave in a few days for Mexico City to make their demands. Manuel Garza of Aldape was named minister of agriculture by Huerta today but declared he will not accept.

GOVERNOR ANGRY.

Attitude of Government is Outrage, Says Colquitt of Texas.

AUSTIN, Texas, Feb. 20.—Governor Colquitt of Texas sent a telegram to United States Senator Culberson in which he asserted that "the present federal policy toward this state is an outrage," and urged that efforts be made to have additional United States troops assigned to patrol duty along the Mexican-Texas border.

"If I am compelled to take the situation in hand, I will do so vigorously," said the governor in his telegram. "Definite action should be taken by the federal government and protection given by garrisons of troops or the government should advise us that nothing will be done and let us look out for ourselves. We will not hesitate to protect our people if we can be advised that the federal government will not do so."

"HANDS OFF."

This government to Be Strictly on Fence Regarding Mexico.

WASHINGTON, Feb. 20.—An attitude of strict non-interference will be maintained by the administration toward the Huerta-Diaz regime in Mexico and no formal recognition will be accorded the self-styled heads of the government until they develop a stable administration. Any suggestion of approval or condolence over the events of the past two days will be withheld.

Although the tenacity of the situation has been somewhat relaxed, there are fears that serious complications will arise over the expiration of Generals Victoriano Huerta and Felix Diaz and the added danger of dissatisfaction on the part of the Orozco-Salazar element in the north and the Zapata followers in the south.

Northern Rebels Will Make Trouble.

Already information has reached the department of state that the rebels in the north will not bow to the latest regime in Mexico City, as they have intense hatred for Huerta because he prosecuted a successful campaign against them.

It was made plain by high officials here, when the report of Madero's resignation came several days ago, that the selection of Francisco de la Barra, former ambassador to the United States as provisional president would please the administration.

"Hands Off" Policy Strictly Ordered.

"Hands off" is the policy which the administration has adopted and in following it there will not be the slightest suggestion as to who will be satisfactory as titular head of the government. The treaty of Huerta has not aroused any favor in his behalf and army officers privately censure him for "betraying his chief."

There is a perceptible admiration for Diaz because of the fight he made after being condemned to death. The attitude of de la Barra throughout the conflict and that he maintained has been the subject of more favorable comment. The administration is much relieved by the ousting of Madero and it is not believed that circumstances compelling intervention before March 4 will develop.

NOW, WHAT WOULD YOU DO?

SOLDIERS AT FT. RUSSELL USING DRUGS

MORE THAN 100 ENLISTED MEN PLACED UNDER ARREST IN EFFORT TO BREAK UP HABIT.

MUST TELL WHO SOLD COCAINE

Every User of Drug Will Be Placed on Stand to Testify and Refusal Will Make Each Liable to Courtmartial and Dishonorable Discharge.

CHEYENNE, Wyo., Feb. 20.—More than 100 enlisted men of the Eleventh Infantry and Fourth field artillery, constituting the garrison of Fort D. A. Russell, has been placed under arrest because they are habitual users of cocaine.

There are privates, corporals, sergeants among the prisoners, all of whom are held "incommunicado" pending the weeding out of the companies and batteries of more who are afflicted by the habit of which they are the victims. When every man of the garrison who is an habitual user of cocaine has been detected and placed under restraint three will be an investigation, which is intended to force from the soldiers information regarding the steady source of the cocaine which is supplied to them.

Facing Dismissal. Refusal to testify will mean that they will be courtmartialled and dismissed from the army in disgrace.

The war department is determined to check among the soldiers the habit of using cocaine and the arrests at Fort Russell are being made with authority direct from Washington. Brigadier General Edwards, who relinquished command of the local post yesterday, began the crusade, and also inaugurated the campaign of education, which is in progress at Fort Russell. Colonel Dyer of the Fourth field artillery, who succeeded General Edwards in command at the local post, will finish the work which Edwards began.

All Are Implicated. Every company and battery at Fort Russell have contributed to the crowd of soldiers who are held under guard at the hospital.

Twenty-five privates and a sergeant were arrested in one company of seventy-five men. One guard set to watch the men confined in the hospital was detected supplying cocaine to prisoners and was proved himself to be a cocaine fiend.

Three bills, each making the sale of cocaine to a habitual user of the drug a penitentiary offense, have been introduced in the Wyoming legislature at the instigation of officers at Fort Russell, while the Cheyenne police authorities are waging a relentless warfare on smugglers of cocaine.
