

July 17, 2017

Dear Governor Abbott:

Texas cities are among the fastest growing in the country and play a critical role in the Texas economy. We believe that several of the proposals announced as part of the call for the 85<sup>th</sup> Special Legislative Session will directly impede the ability of Texas cities to provide vital services that reflect the priorities of local residents. We would like the opportunity to meet with you to discuss the role cities play in attracting jobs and investments to support the prosperity of the State of Texas.

Recent reports project that the largest cities in our state will increase in population by at least 50 percent over the next 25 years. People are moving to Texas cities because we are home to strong job markets and places where they want to live and raise their families. To prepare for this rapid growth, we must continue to have the tools to manage our budgets, improve infrastructure, provide critical services like public safety and pass policies reflective of local resident priorities. Harmful proposals such as revenue and spending caps, limiting annexation authority and other measures preempting local development ordinances that directly harm our ability to plan for future growth and continue to serve as the economic engines of Texas.

As Mayors, we are dedicated to delivering quality services to our residents and attracting new businesses to move Texas forward. We respectfully ask to schedule a meeting with you as soon as possible to discuss your specific concerns with Texas cities and how we can work together to ensure a productive partnership for Texas.

Sincerely,
