**Subject:** Hospital story

Alex,

I have a quick question. (It's James from the County Executive's office, I don't have access to my work email and I just read your story on the downtown hospital, so I'm emailing from my private email). You asked all the elected officials but no one thought to call the county executive's office?

I'd like to talk in the morning on this story. I'm just shocked that the County Executive, who has more skin in the game on the Hospital and MV500 (since it was his idea) didn't even get a call to comment.

Look forward to talking in this morning (wed).

Thanks

JG
