

## **McDonald's is Now Available for Delivery on UberEATS in the Twin Cities**

*Nearly 20 McDonald's restaurants throughout the Twin Cities are available on the UberEATS app*

**MINNEAPOLIS – June 19, 2017** Whether they are home, the office or somewhere in between, McDonald's customers in Minneapolis and St. Paul can now enjoy their favorite burgers, fries, beverages and desserts delivered right to them through UberEATS. Now McDelivery on UberEATS is available at nearly 20 McDonald's restaurants throughout the Twin Cities.

"We are excited to bring a new level of convenience and personalization to our customers in Minneapolis and St. Paul with UberEATS," said Walt Maney, Vice President and General Manager, McDonald's Midwest Region. "Our customers have told us they enjoy experiencing McDonald's in new ways, and we look forward to offering more ways to enjoy their favorite menu items."

Customers can place McDonald's orders on the UberEATS mobile app or on UberEATS.com, using the same account they use to take Uber rides and track their order, as an UberEATS delivery partner brings their meal directly to them. An UberEATS booking fee applies to each order. Customers can get \$5 off their first UberEATS order now through December 31 using the promo code MCDSMILE.

"With UberEATS, you can get the food you want, where you want it, delivered at Uber speed. We're thrilled to partner with McDonald's to give fans in the Twin Cities easy access to their McDonald's favorites at the tap of a button," said Peter Forsberg, General Manager of UberEATS Minneapolis/St. Paul. "People in the Twin Cities search for McDonald's in the UberEATS app almost daily, so we're excited to expand our reach and deliver what they've been craving."

McDonald's recently announced that delivery with UberEATS is expanding to additional U.S. markets following a successful pilot in Florida earlier this year. More than 2,000 restaurants across the country now offer McDelivery with 3,500 available by the end of June. Delivery is just one way that McDonald's is enhancing the customer experience through added convenience. McDonald's continues to transform the restaurant experience through the addition of self-order kiosks, table service and digital menu boards and will roll out mobile order and pay across its 14,000 U.S. restaurants later this year.

As McDonald's and UberEATS mark the arrival of delivery in Minneapolis and St. Paul, media will have the opportunity to visit a local McDonald's to capture behind the scenes action, see delivery in action and talk to McDonald's and UberEATS spokespeople.

When: Monday, June 19 from 11 a.m. to 1 p.m.

Where: 407 15th Ave. S.E., Minneapolis, MN 55414

Spokespersons:

- Josh Choate McDonald's Owner/Operator
- Peter Forsberg, General Manager of UberEATS Minneapolis/St. Paul

### **About McDonald's USA**

McDonald's USA, LLC, serves a variety of menu options made with quality ingredients to more than 25 million customers every day. Nearly 90 percent of McDonald's 14,000 U.S. restaurants are independently owned and operated by businessmen and women. Customers can now log online for free at approximately 11,500 participating Wi-Fi enabled McDonald's U.S. restaurants. For more information, visit [www.mcdonalds.com](http://www.mcdonalds.com), or follow us on Twitter @McDonalds and Facebook [www.facebook.com/mcdonalds](http://www.facebook.com/mcdonalds).

### **About UberEATS**

UberEATS is Uber's stand-alone meal delivery app that makes getting food as easy as requesting a ride, whether you're at home, the office, or the park. Uber is leveraging its technology and expanding its driver partner network to deliver food to hungry customers who can track their order, get an upfront delivery time, and use the same account they use to take rides. UberEATS is available globally in more than 70 cities, bringing millions of people the right food, for right now—at the tap of a button.
