

Bubble Soccer Rules

1. Game will start with both teams behind the goal line. On the starting signal, players may run toward the ball to gain possession for their team. This will also happen after each goal is scored.
2. Players may be anywhere on the field at any time (no off sides penalties) however the following rules must be followed:
 1. When a player is down, you must give them space and time to get back up. You must not bump into or jump on a player that is down.
 2. You cannot charge into a player from behind in a manner in which you are running at, or close to, full speed.
 3. No purposeful contact should ever be made to the bubble with your feet.
 4. There will be absolutely no bumping before or after the game whistle.
3. Players must stay out of the crease in front of the goal. There is no permanent goalie. (What fun would that be anyway? Get out there and join the intense action!!)
4. Referee will determine all boundaries and local rules for each game depending on location of the game and whether it is indoors or outdoors. Referee will also determine all warnings, penalties, and consequences.
