

16 TO 12

COLORADO AGRICULTURAL COLLEGE TEAM DEFEATED BY UNIVERSITY BOYS.

Game Was Very Close and Interesting—Considerable Wrangling—Collins a Good Kicker, Over Decisive—Weather Was Windy and Cool—Spectators Crowd on the Field.

I thought I heard my grandmother say, That Fort Collins was going to play football today.

With a revo, with a rivo, With a revo, rivo, rum.

They did play, but not quite hard enough and because they played a kicking game—i. e., against decisions—they lost the game and the score really ought to be 0 for the Fort Collins team.

The game was closely contested from the start, the visitors winning the toss and taking the west goal, with the wind and sun at their backs.

In the first half E. D. McArthur, the Laramie druggist and an expert football player, was umpire, while Mr. Doane of Fort Collins was referee. The university had the kick-off and Trabing kicked off at 2:47 to Collins' 10-yard line, the ball being caught by C. Emigh. Collins' left half-back and star player, who advanced 10 yards and was downed by Brees. The two teams then lined up for earnest playing. Newell, the captain who played left end, made two yards through left tackle, C. Emigh, left half back, followed with 5 yards through Laramie's line and was downed by Ponting. Greenacre, the big full-back, hit the line for only 3 yards; the two other backs each tried it and made 2 yards each, and then Collins' right half-back fumbled a kick and Laramie got the ball on her 25 yard line; Houston, right half back, tried the right end and was stopped, Paulson meeting with the same success on trying to go through the center. On the next play Houston fumbled and the ball went to Collins on downs. H. Emigh, right half-back, tried the right end and was stopped, a run on tackle and Trabing broke through the line and caught him behind the line with a loss of 3 yards. On the next play C. Emigh slipped around Laramie's left end and ran over the line clear up behind Laramie's goal for a touchdown. Time, 2:57.

Mills, quarter-back, kicked goal. Score, Collins 6, University 0.

Wilson, the veteran "end" for the universities, now went in McDonald's place and this end of Laramie's line suffered no further during the game. Trabing kicked off from the middle of the field to Collins' 5 yard line and the ball is advanced 10 yards. C. Emigh tries a right end run and is tackled by Brees with a loss of 4 yards. Gallier, the right tackle, is called back to try a run around left end and is tackled by Scott and Miller after a gain of 5 yards. C. Emigh called for time and Fort Collins began her "game" of playing for wind by having first one man pretend to be disabled and then another. Collins tried a kick, Houston catching the ball and advancing it 20 yards. Brees and Houston then took turns in hitting the line and made from 2 to 6 yards in eight successive plays and ending in a touchdown, Brees going over the line between Collins' goal posts. Trabing made the opening in the line for this touchdown.

Paulson kicked a goal and the score stood 6 to 6.

Newell, Collins' captain and left end, kicked the ball and Ponting, for Laramie, caught it and advanced it 15 yards, and after four attempts lost the ball on downs. The decision of referee, Doane, was disputed, as Laramie had only had two downs and made her five yards, but it had to go and Brees, Laramie's captain, submitted under protest. Collins made a few plays and made a second touch down.

Mills, the quarter-back, kicked goal. Score, Collins 12, University 6.

The ball was brought to the center of the field, Trabing kicking off to C. Emigh, who was tackled by Scott and Miller on the spot. Collins again played for wind. H. Emigh made 4 yards around the left end and C. Emigh was tackled by Scott on the next play with a loss of 4 yards. Collins played for wind. On the next play C. Emigh was caught by Scott and Miller and pushed back over the line. Referee Doane allowed Collins' claim for a down on the 5 yard line, Collins having lost 16 yards. Collins tried a kick and sent

the ball to Laramie's 45 yard line, where it was downed by Houston. After two little plays Scott got around the right end and ran from the 40 yard line across the goal line and made a touch down at 3:45, there being only three-fourths of a minute left to play.

Paulson missed an easy goal and the score stood 11 to 12 in favor of Fort Collins, when the first half ended.

Lohlein took Jennings place on right end and the Fort Collins fellows found that Wilson and Lohlein shut off end plays pretty well. After that Maxfield took Gallier's place as tackle in the Fort Collins team.

The second half began at 4:03, the umpire and referee changing positions. Newell, the captain, kicked off to Laramie's 25 yard line. Brees, Wilson, Houston and Scott each made gains of from 1 to 6 yards and advanced the ball close to Fort Collins' goal, when they lost the ball on downs. Collins played for wind. The struggle was continued back and forth over the field, first one side having the ball and then the other, the principal plays being the blocked runs of Houston and Scott, who each had a clear field for a touchdown, but the crowd got in the way in Scott's play and Empire Doane, of Fort Collins was in Houston's way. Later Ponting made a 60 yard gain on a beautiful run along the side line. Laramie had the ball on Collins' 20 yard line with two minutes and forty seconds to play, the latter making a "kick" on foul tackling. Referee McArthur, who saw the play, overruling the claim. Fort Collins refused to play, but when the referee called on the sides to play, part of the Collins team lined up and Laramie, after waiting several minutes for the Collins men to line up, put the ball in play and made a touch down, the score being then 16 to 12 in favor of Laramie and the game ended, it being after sunset.

NOTES OF THE GAME.

Paulson played a good game at center.

Lohlein made some star tackles in the second half.

Rogers was fine at tackle and got in to the plays well.

Prof. Soule was a most interested observer of the game.

Brees did some fine tackling and hit the line for gains.

Jesse Converse was timekeeper and had two fine watches.

Corlett Downey and W. H. Wright made two good linemen.

Saxon, as guard, did his work quietly and in good shape.

"Scotty" was certainly the star of the game but he wasn't the only baby in the bunch.

The crowd persisted in getting on the field during the game and interfering very much.

Lieutenant Coburn said it was like old times and wanted to play very badly. So did others.

Laramie was very weak on her ends until Wilson and Lohlein went in; then it was different.

They thought "Fatty" Raife was too soft and easy to hold out a game but he was all right.

The training of the Laramie team reflects great credit on Mitchell of Boulder, who was the coach.

Referee Doane was just and fair and his decisions were right with one exception and he regretted the dispute very much.

Charles Peabody, who has just returned from Alaska, enjoyed the game very much. He was a player in one of Laramie's first football teams.

The university must have a football grounds that are fenced in and have bleachers and a strong fence to keep the crowd off the gridiron.

Latimer Gray assisted in reporting the game for The Republican and was right behind the side having the ball. He attracted no little attention himself.

Emigh, the Collins player who made the kick of foul tackle, was seen to repeatedly slug and tackle foul during the first half and was repeatedly called down.

Will some of Laramie's wealthy citizens take the lead and donate a handsome sum for grounds, which can be fenced off and used for all athletic purposes?

OUR LARGE GAME

STATE WARDEN NELSON GIVES SOME INTERESTING INFORMATION.

He is of the Opinion That the Operation of the State Law Will Result to the Great Benefit of the People in the Preservation and Perpetuation of the Game.

Mr. Albert Nelson, the honorable state game warden, paid a visit to the capital city during the week, and was kind enough to accord an interview to a representative of The Republican. Mr. Nelson appears to be a painstaking, careful and efficient officer, having the rights of the state and the preservation of the game at heart.

He reports game in splendid condition and on the increase, particularly in that section of the state where he resides and where big game is abundant.

This year proved a good tourist season, a large number visiting the excellent sporting resorts of the western portion of the state. All of these gentlemen, many of whom were foreigners, showed a disposition to obey the state laws and only one arrest was made in the enforcement thereof. Through the collection of the licenses from outsiders the sum of \$7,000 was obtained.

Mr. Nelson is enthusiastic over the operation of the law and avers that the guide system works admirably. He would, however, have it amended in certain particulars, which will be considered at some length in his annual report to the governor.

The game that furnishes sport for the hunter consists principally of elk, deer, antelope and mountain sheep, although for those who desire the questionable pleasure a bear can be furnished. The bear are of the black, brown and grizzly varieties, and are capable of giving a man a run for his money upon the slightest provocation. Buffalo are an almost extinct animal. There are a few in the National park, occasionally one is seen in the northern part of Jackson Hole, and there is said to be a few in the Red desert.

Mountain lions and coyotes have proved very destructive to the game of Wyoming. The lions will, of course, pull down the largest kind of game, and the coyotes kill antelope, deer and elk.

Mr. Nelson desires to return his thanks to the forest rangers for the very able manner in which they have assisted him in enforcing the law. He feels that this has been brought about in a great measure by Mr. C. W. Garbutt, superintendent of foresters. The new law provides for the appointment of foresters as deputy game wardens and they have been acting in that capacity. Geo. B. Abbott, a special agent of the department of the interior, has also been made a special deputy and has rendered Mr. Nelson much valuable service in the protection of the game of the state. Mr. Abbott is commended by the game warden as a careful and competent officer.

The people generally are inclined to obey the new law and aid in its enforcement. Recently Mr. Nelson posted notices to settlers that they had better provide themselves with winter meat before the close of the open season, Dec. 1, and he is pleased to state that there has been a general observance of the notice. So well have the settlers obeyed the state law that not an arrest has been made for its violation.

This winter two of the warden's deputies will accompany the vast droves of elk that winter in the Red desert, in order that they may be protected from violators of the law.

Mr. Nelson feels that trouble with the Indians was avoided by the prompt and energetic action taken by Governor Richards. The secretary of the interior was notified that violations of the law would not be tolerated and the Indians were therefore restrained from going into the Jackson Hole country.

Fishing in northwestern Wyoming is excellent and small game abounds in almost endless quantity and small

Can't Stand Cold

Many children can't stand cold weather. The sharp winds pierce them, and the keen air hurts them. They have cold after cold, lose flesh, and spring-time finds them thin and delicate.

Scott's Emulsion will make such boys and girls hearty and strong. The body is better nourished, and they are better protected. The blood becomes richer, and that makes them warmer.

Scott's Emulsion is made by combining cod liver oil with a small amount of sugar and a little of the most powerful of the vegetable kingdom. It is the most perfect of all cod liver oils. Daily Republican only 50c a month.

ROYAL BAKING POWDER

Imparts that peculiar lightness, sweetness, and flavor noticed in the finest cake, short cake, biscuit, rolls, crusts, etc., which expert pastry cooks declare is unobtainable by the use of any other leavening agent.

Made from pure, grape cream of tartar.

ROYAL BAKING POWDER CO., NEW YORK.

game abounds in almost endless quantity. There are four different species of grouse.

The warden feels that great credit is due his excellent deputies. In the vicinity of Jackson Hole he has the following gentlemen doing service in his department: D. Y. Dougherty, Wm. Manning, T. W. Lloyd, James Lanigan and Samuel Osborne; in Star valley he has Joseph Nelson, and at Kemmerer Allen Rae.

Mr. Nelson feels that an immense amount of good is being done through the operation of the state game law and predicts that it will perpetuate the large game.

STRIKE AT DIAMONDVILLE.

Six Hundred Coal Miners in the Wyoming Camp Go Out.

Diamondville, Wyo., Nov. 29.—The strike which has been threatened for over a week has come and 600 coal miners employed in the mines of the Diamondville Coal and Coke company at this place are without employment and the mines idle. When the men quit work last night the company was notified that they would not return until their demands had been granted.

A week ago the Miner's union presented a demand to the company for an increase of 10 cents per ton; also an advance of 10 per cent for day work and the reinstatement of two miners who had been discharged. After a conference with General Manager Whyte the miners were granted an increase of 3 cents per ton, but the company refused to re-employ the two discharged men. The miners returned to work seemingly well satisfied with the concessions made, but during the week they demanded that the two discharged men be reinstated. This the company refused and at a meeting of the Miner's union yesterday a strike was declared.

A number of men desired to go to work this morning, but were called off by the strikers. It is the general opinion here, however, that the strike will not last long, as the leaders in the movement are mostly foreigners who have caused more or less trouble for several years, and with whom there is little sympathy. The better class of men are desirous of returning to work and will probably do so soon. There is no disorder of any kind and no trouble is feared.

The company will not suffer seriously, as all orders can be filled at mines of the company at other points, by putting on extra forces.

A SURE CURE FOR CROUP.

Twenty-five Year's Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it was not found to show such a record—twenty-five years' constant use without a failure. For sale by Frank Eggleston, the druggist.

Why the Pagodas Stand.

In Japan there are pagodas of considerable height, which have withstood the effects of frequent earthquake shocks for centuries. The secret of their stability is that they are fitted inside with a heavy timber-beam construction, which hangs from the roof like a clapper of a bell. On the occurrence of a shock the effects of the vibration are wholly counteracted by this comparatively simple device.

Fans. It is no unusual thing for a vessel plying between Japan and London to carry 1,000,000 fans as a single item of its cargo.

Daily Republican 50c per month.

Greater Than Niagara.
A correspondent writing in the London Spectator says the Gersoppa falls, on the Sharavatti river, in South Kanara, India, are larger and more magnificent than Niagara. He says: "The river is 250 yards wide, the clear fall is 830 feet. The Gersoppa falls in the rainy season are incomparably finer than Niagara in every respect. The roar of the falling waters is simply terrific; the whole earth shakes, and the thunder is so great that it completely drowns the human voice."

Luggage Arrived First.
From the London Answers: As a train was moving out of a Scotch station a man in one of the compartments noticed that the porter, in whose charge he had given his luggage, had not put it into the van, and so shouted at him and said: "Hi, you old fool, what do you mean by not putting that luggage in the van?" To which the porter replied: "Eh, manlyer luggage is ne'er such a fool as yersel! Yer 't the wrang train!"

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D. B. Johnston of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says: "I never found anything that would relieve me until I used Chamberlain's Pain Balm. It acts like magic with me. My foot was swollen and painful me very much, but one good application of Pain Balm relieved me. For sale by Frank H. Eggleston, druggist.
