

# Wyoming COVID-19 Death Dashboard

This Dashboard was last updated: February 8, 2022 at 11:57

[Return to Navigation Page](#)

Total COVID-19 Related Deaths: **1,667**

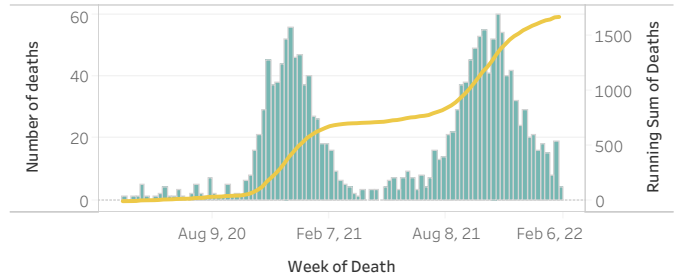

Deaths count toward the Wyoming COVID-19 related death total based on the location of the person's permanent residence. Permanent residence is from the official death certificate. This total includes only persons with a permanent residence in Wyoming. Wyoming residents who die in another state are not counted in both states. If the death certificate does not list COVID-19 as causing or contributing to the death, then it is not included in the COVID-19 related total.
